

FIRECHIEF FIRE EXTINGUISHER STERILISING TABLETS

THE PROVEN WAY TO MAINTAIN
ODOUR-FREE WATER EXTINGUISHERS

FIRECHIEF®
making the world a safer place

MODEL:

ECT1

ECT1
122-1055

- Tablets are effective against bacteria, fungi, viruses and spores
- Convenient and easy to use. Just add to water and allow to dissolve.
- Dissolves in solution to a near neutral pH solution - safer for operatives, unlike sodium hypochlorite which is invariably pH 9.0 -12.0

These small, white tablets are based on a dry chlorine donor, sodium dichloroisocyanurate (NaDCC) which is blended with effervescent components before being compressed into tablet form.

Each tablet liberates 300 parts per million available chlorine per 1 litre of water, even after 5 years storage of the tablet.

SUGGESTED DOSAGE

NOTE: Only to be used in accordance with extinguisher manufacturer recommendations

6L Water Extinguisher: Dissolve 1 tablet in 6 litres of clean water.
Fill and pressurise extinguisher according to manufacturers instructions.

9L Water Extinguisher: Dissolve 2 tablets in 9 litres of clean water.
Fill and pressurise extinguisher according to manufacturers instructions
