

FireShield Fire Extinguisher Gauge Dots

Product Specification Sheet

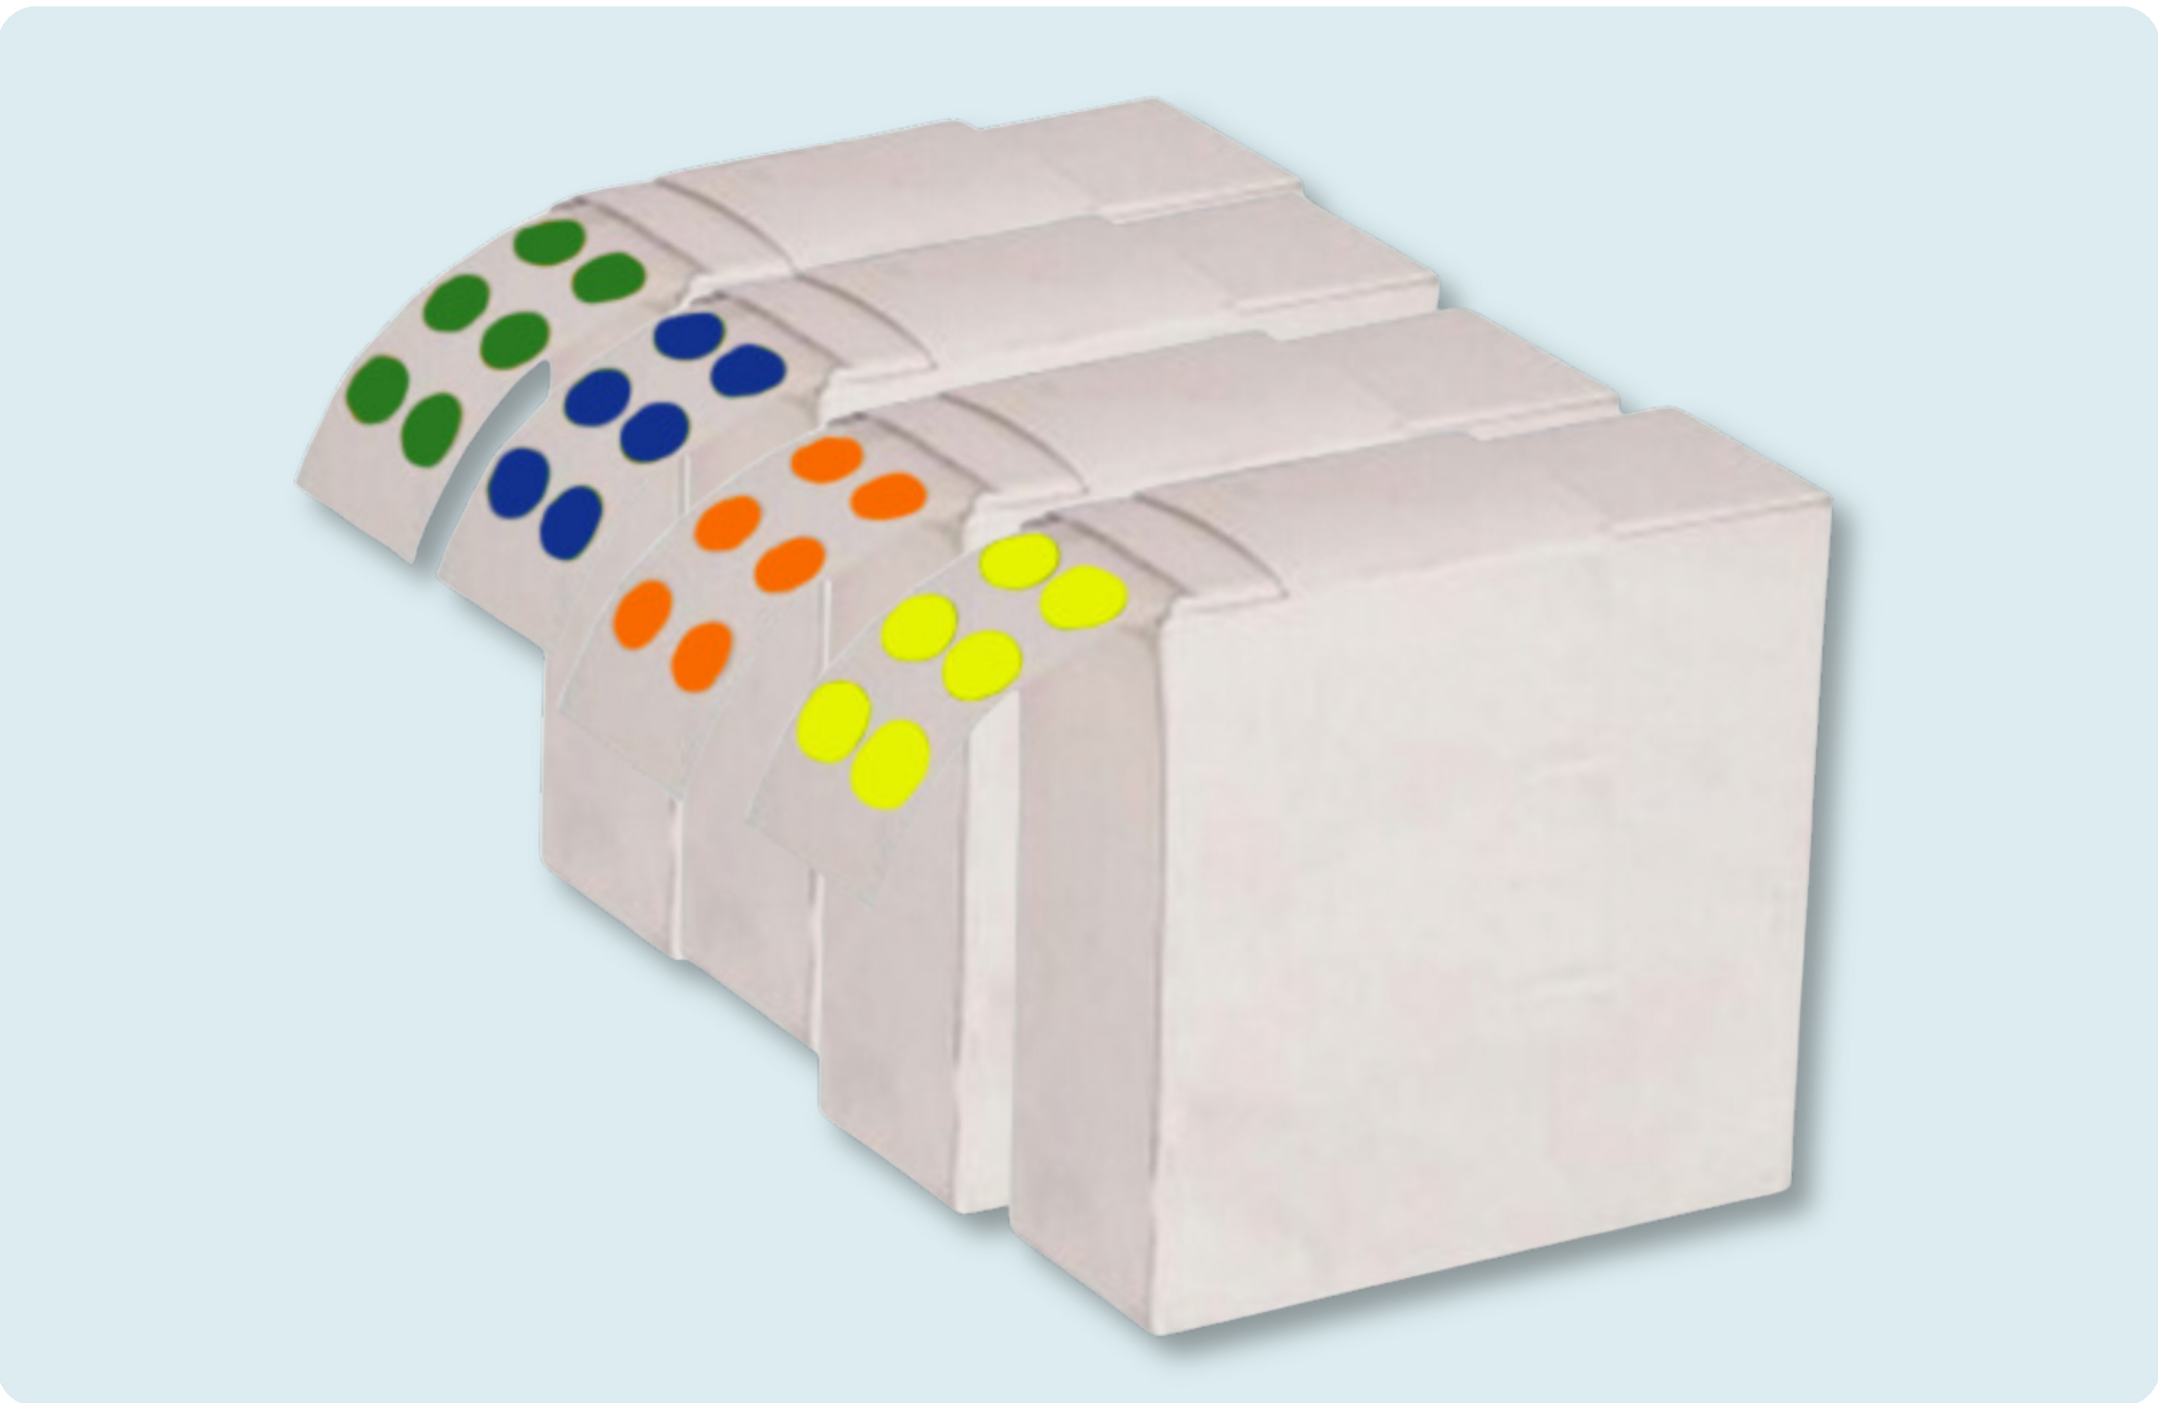

FireShield

Our FireShield fire extinguisher gauge dots provide a clear visual indicator of the last service date and gauge test. Available with or without a stamped service year, these dots are essential for annual extinguisher maintenance. Particularly useful for professionals performing annual fire extinguisher inspections, helping ensure compliance with safety regulations and simplifying service recordkeeping.

Key Features

- Supplied in boxes of 1000
- Available in multiple colours
- Compatible with all standard extinguisher gauges
- Helps maintain compliance with fire safety regulations
- Clear gauge test indicator
- Essential for annual servicing
- Self-adhesive for easy application
- Time saving tool for service technicians and inspectors

FireShield plain coloured guage dots. Green, blue, orange & yellow. Used during annual fire extinguisher maintenance as a standard service item.

FireShield 2025 dated gauge dots feature black text on a coloured or clear background, providing a clear visual record of the last service and gauge test.
