## FireShield ABC Aerosol Extinguisher

## **Product Specification Sheet**

## **Key Features**

- CE approved
- Manufactured in accordance to BS 6165
- Passed 35kv conductivity test
- Complete with bracket
- Aerosol factory sealed extinguisher
- Minimal maintenance required
- Aluminium lightweight body
- Controlled discharge
- 5 year warranty

The Mini FireShield ABC Dry Powder Aerosol Extinguisher is a versatile option for Class A, B, and C fires, ideal for open areas. It smothers flames by cutting off oxygen but isn't suited for confined spaces due to inhalation risk. PFAS-free, it's great for domestic and leisure use.

## **Technical Specifications**

Capacity         600g         850g           Fire Rating         3A 13B C         5A 21B C           Extinguishing Medium         ABC Powder         ABC Powder           Working Pressure         8 Bar         8 Bar           Temperature Range         -20°C - +55°C         -20°C - +55°C           Cylinder Material         Aluminium         Aluminium           Height         297mm         318mm           Cylinder Diameter         65mm         73mm	Specifications	FSA001/600	FSA001/850
