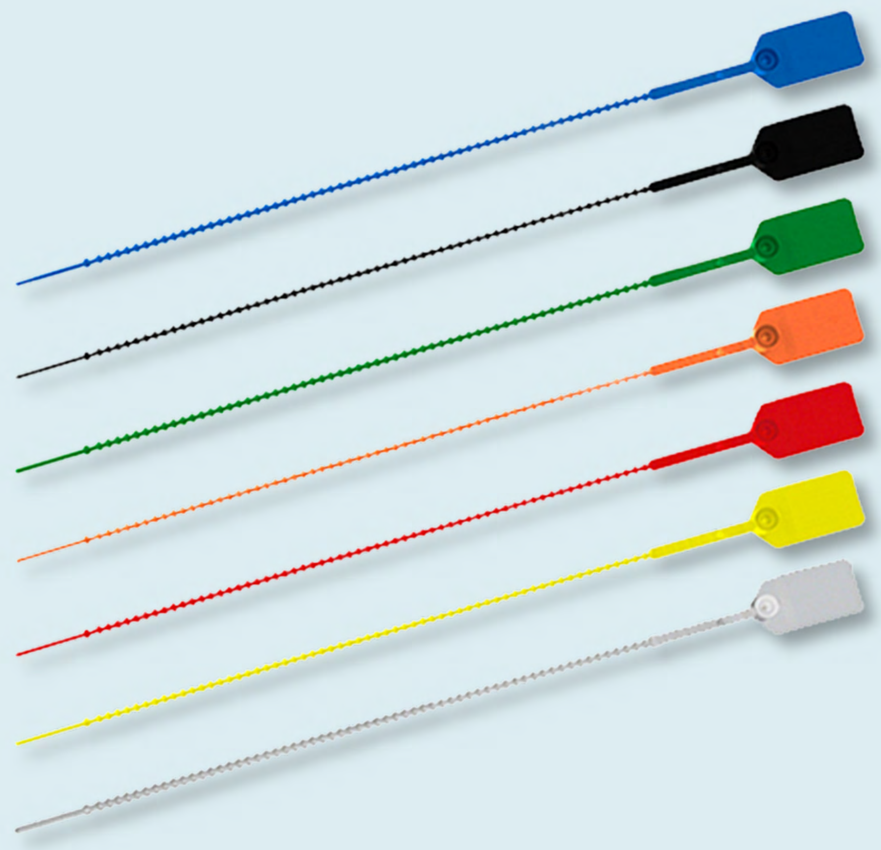
FireShield Anti-Tamper Seals

Product Specification Sheet

FireShield

Key Features

- Universal fit – Compatible with all standard extinguisher sizes
- Tamper-evident design – Clearly shows if the extinguisher has been used or interfered with
- Quick and simple installation
- Enhances visual monitoring and maintenance efficiency
- Built to withstand demanding operational environments. Ideal for industrial, commercial, and emergency service applications.
- Available in 8 distinct colours: yellow, orange, red, green, blue, black, grey, and white



The FireShield anti-tamper seals provide clear indication of extinguisher use or interference. Designed to loop through the safety pin and handles; cannot be resealed once broken. Available in eight colours: yellow, orange, red, green, blue, black, grey, white.
