

FireShield Double Fire Extinguisher Trolley

Optional Rotary Alarm Hand Bell

Product Specification Sheet

FireShield

Key Features

- Extinguisher cradles for stable transport
- Solid rubber wheels
- Chassis fabricated from mild steel tube
- Epoxy polyester powder paint finish in red
- Rubber handles for firm grip when moving around
- Ideal for all types of premises
- Optional rotary alarm hand bell

The FireShield Double Fire Extinguisher Trolley is ideal for fast, easy transport of firefighting equipment in environments like construction sites and petrol forecourts. It holds up to two 9kg/ltr extinguishers with secure cradles, features a strong steel frame with a corrosion-resistant powder coating, and has durable rubber wheels for quick mobility. A built-in sign holder keeps safety information clearly visible.
