FireShield Flat-Pack Compact Double Extinguisher Trolley

Product Specification Sheet

FireShield

Key Features

- Simple 3 part design
- Stainless steel with nylon wheels
- Compact and robust
- Offers efficient storage and transportation
- Standard and branded bundles available

UK CA CE

The FireShield Flat-pack Compact Double Trolley is built tough for busy sites like construction zones, petrol stations, holiday parks, and festivals.

It holds two fire extinguishers (up to 9kg), a site alarm, and a fire bucket. Its compact, flat-pack design cuts down on transit damage and makes setup easy.
