

FireShield Triple Fire Extinguisher Trolley

Product Specification Sheet

FireShield

Key Features

- Extinguisher cradles for stable transport
- Solid rubber wheels
- Chassis fabricated from mild steel tube
- Epoxy polyester powder paint finish in red
- Rubber handles for firm grip when moving around
- Ideal for all types of premises

The FireShield Triple Fire Extinguisher Trolley is perfect for quickly moving fire safety equipment in places like petrol stations.

It holds up to three 9kg/9ltr extinguishers and two fire buckets, with a strong steel frame and rust-resistant coating.

Tough rubber wheels make it easy to move, and there's space for safety signs to keep key info visible.
